# Global DOE/AIE Coordination Forum Meeting

“Moderate” Participation with useful discussion

Main topics:

- CDM post 2020 and DOEs under the PA
- Accreditation issues
- Recent market situation
- Transparency and Confidentiality

# Wishlist regarding future developments

- Establish transfer mechanism of CDM to Art. 6.4 as soon as possible
- Launch negotiation on the continuation of CDM post 2020
- Confirm both concepts at coming CMP
- Enable a single accreditation of DOEs for CDM and Art. 6.4
- Consider CDM as accounting tool in carbon finance and under Art. 6.2

# Accreditation issues

- Some entities still consider not to request re-accreditation after expiration of recent accreditation period
- Interesting suggestion how to combine DOE accreditation and ISO 14065 accreditation

## Recent market situation

- Well known, that market is down
- Discussion on “completeness of completeness checks”
- Need for a harmonization event regarding PoA submissions which show significant higher share in re-submissions

# Transparency and Confidentiality

- Discussion regarding issue of last meeting and access to the PoA survey results
- Possibility that there might be an issue needs to be identified earlier next time

## DOE Forum in 2018

- Recent joint activity with secretariat to launch some fund raising for supporting activities of the D.I.A.
- Werner Betzenbichler will remain as Chair for a further year (presuming election / non-objection)

**Thank you for your attention!**
